Re: Amended Notice of Intention, James C. Petersen, Henrietta #21, S/003/029, Box Elder County, Utah

Dear Mr. Petersen:

Thank you for your amended Notice of Intention to Commence Small Mining Operations, received by the Division February 4, 2003. The application to change the areas for which you will be conducting mining operations at the Henrietta #21 quarry cannot be approved at this time.

This request included deleting the proposed 2- acre disturbance in Section 24, and applying this acreage to the disturbances in Section 14 (Township 13 North, Range 16 West, SLBM). Before the Division can approve your request, you will need to provide a map that shows where the disturbance in Section 14 will be located. Also, we will need to conduct an inspection of the site to verify that there are no mining related disturbances in Section 24. We anticipate that this inspection could be conducted in May or June, prior to your starting operations for the year. Please contact the Division to schedule this inspection at least ten days prior to your anticipated startup date. As with the last amendment, you will also be required to mark the perimeter of your proposed disturbed area with t-posts or similar markers prior to disturbing the area.

Thank you for your cooperation in this matter. Please don't hesitate to give me a call if you have any questions with regards to your proposed amendment.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
